### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William Titcomb on May 11, 2007.

The application has been amended as follows:

Rewrite **claim 11** to read as followed:

An MPEG data recorder comprising:

an IEEE 1394 interface unit, which performs an isochronous communication through an IEEE 1394 link that receives data packets from a digital transmission line transmitting MPEG data in real time, and extracts predetermined MPEG data relating to the same content from received packets and outputs the extracted MPEG data as a data signal and outputs a transmission control signal when the interface outputs a data signal;

a data rate detector that determines a data rate of the MPEG data based on a valid data period, during which the data signal is outputted from the interface and determines a percentage occupied by the valid data period, by detecting the transmission control signal and adds up valid data periods in a

predetermined period for detection including two or more isochronous cycles,  
and detects the data rate of the MPEG data based on the added-up value;

a recording mode selector that selects a recording mode based on the  
determined data rate; and

a motor driver that controls the speed of a recording media based on the  
selected recording mode.

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Heather R. Jones whose telephone number is 571-272-7368. The examiner can normally be reached on Mon. - Thurs.: 7:00 am - 4:30 pm, and every other Fri.: 7:00 am - 3:30 pm.
